Control Parameters:  
No applicable occupational exposure limits

Appropriate Engineering controls:  
Emergency eye wash fountains and safety showers should be available in the immediate vicinity of use/handling.

Respiratory protection:  
Not required under normal conditions of use. Use suitable respiratory protective device when aerosol or mist is formed.

Protection of skin:  
The glove material has to be impermeable and resistant to the product/the substance/the preparation being used/handled. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

Eye protection:  
Safety glasses with side shields or goggles.

General hygienic measures:  
The usual precautionary measures are to be adhered to when handling chemicals. Keep away from food, beverages and feed sources. Wash hands before breaks and at the end of work. Do not inhale gases/fumes/dust/mist/vapor/aerosols. Avoid contact with the eyes and skin.
